Recommendation

Norway Cup has for several years utilized the network and professional skills of Refex to acquire necessary referees to our yearly youth football tournament. Norway Cup needs 350 referees to manage one of the world's largest youth football tournaments and Refex has provided referees from several European countries.

Refex has the professional overview to classify referees according to our need of experience, make sure they live up to the professional standard we require and help them with practical travel arrangements. This allows Norway Cup administration to focus on our tournament and the local Norwegian referees.

The Norway Cup Administration recommends Refex as a partner for providing European referees to any football tournament.

Yours sincerely
Norway Cup
